

# Artificial Plant Wall Installation Guide

## Artificial Plant Wall Installation Guide

**Step 1: Prepare tools for installing an artificial green wall.**

**What kind of tools do you need? Tape measure, pencil, screw & fixing sleeve, hammer, and electric drill.**

**Step 2: Measure the wall to confirm the artificial plant wall panels needed for installation and mark with a pencil.**

**Step 3: Use the electric drill to drill holes in the specific areas of the wall.**

**Step 4: Fix screws and fixing sleeves into the holes.**

**Step 5: Be careful when welding the artificial green wall panels into the wall.**

**Step 6: Go on to hang and install the rest of foliage mats.**

★ **Tip: Tidy up the foliage after installation.**
