## Step1 . Taking Out of the Products

Open the box with a knife carefully (If it's customized with special pattern, we will provide you the installation guidelines. Each moss will be marked with numbers or letters on the back so that to fix the moss according to the sequence in the guideline).

## Step2 . Measurement

Measure the wall size by a hand tape and work out the exact quantity of moss needed.

## Step3 . Installation

Fix the four corners and center of each moss with a nail gun.

## Step4 . Cleaning

During the installation process, if there is dust falling on the moss, use the cold separation of the hair dryer to remove dust

Thanks for choosing our products, pls contact our team for friendly and personal advise on installing if you feel confused.
